

A group of pharmacists and registered technicians in Newcastle

CPD Workshops - Nationwide

Complete 4 to 6 out of 9 CPD entries in a day and have fun doing it!!

CPD4

Contract Skills

You need to be aware of how government thinking will affect your business so we have a quick outline of "Liberating The NHS" White Paper. What happens when PCTs go? Who is going to be commissioning primary care services?

Communications

An inter-active session finding different solutions to those irritating problems you may have with your surgery. An explanation of the surgery and how GPs are paid

Management - How to Keep Your Loyal Customers

It is important that you find the best way to retain your customers as it costs 20 times more to attract a new client as it is to keep an old one. You will learn how to make your own marketing material

Clinical - The management of Diabetes

A review of Diabetes and how it is treated including the latest drugs and the fact that they are no more effective than the old ones. We also show the effect of the 12 NSF standards.

CPD5

Contract Skills

A thorough knowledge of the Drug Tariff is vital to your business as the wrong endorsements or completing your FP34C incorrectly can cost you thousands of pounds. However this is very boring and time consuming so we have gone through it line by line and pulled out the areas most likely to cost you money.

Contract Skills 2

The next part of the government plans for the NHS are detailed in three white papers Healthy Lives, Healthy People Funding, Strategy and Outcomes which details how the money is being spent, what the strategy is for the NHS, Social Services, Local Authorities and Public Health and how the outcomes will be measured. This will give you an overall picture of the changes and hopefully ideas of where you can look and who to approach for funding for local services like smoking cessation, weight management etc..

Clinical

We will cover the newest developments in COPD based on the latest strategies and suggestion for treatments to use to reduce exacerbations and improve quality of life.

Please note the contents of any course is liable to change.

CPD6

Contract Skills

In each area there now has to be a PNA (Pharmaceutical Need Assessment) and a JSNA (Joint Strategic Needs Assessment) to determine what services will be commissioned. We will look at these to see how you can adapt to match.

Communications

In the latest white paper there was discussion about how to change people's attitudes so they would follow a more healthy lifestyle. It was suggested they would use the latest behavioural research to encourage people to change. So this is what we will study and consider how you can apply it to your business.

Clinical - The management of Asthma

A detailed review of Asthma and how it is treated including the latest drugs and the BTS guidelines to see how to reduce the number of unnecessary premature deaths in asthmatics. .

Choose a date, a location and a type (CPD 4, 5 or 6)

Date	Location	Type
Sunday-11-Dec-2011	Liverpool	CPD5
Saturday-07-Jan-2012	Walsall	CPD4
Sunday-08-Jan-2012	Walsall	CPD5
