Patient Survey - "I am undoubtedly coming back to you every year until they decide the survey is over. I work closely with our PCT, and I showed them my results and they all thought the format, quality and layout were incredible. There were 4 people who presented their results. I had yours, someone had the electronic results, someone with another company and someone who did it themselves. Yours wowed them all !!! It has shown everyone who thinks they're saving money by doing it themselves that they're wrong. I think its "fantastic" and don't worry as I definitely won't be shopping around anywhere else from now on".
